

# Rosie

# Burnett

## Creative | Web developer

---

JavaScript  
REACT <Node.js>  
Bootstrap library  
Git terminal  
HTML & CSS {flex & grid}  
VS Code {PowerShell, Bash}  
SASS PREPROS

## About

- extensive **creative background** / design skills combined with **technical code knowledge** & experience of running own business
- understands the importance of building clean, **responsive code** and adapting appropriately to **clients UX** needs along with branding / aesthetic preferences.
- experience of **agile workflow** and branching from **Github repositories** on team projects
- **fast learner & problem solver** with a thirst to acquire more code knowledge and technical skills
- comfortable / experienced with **using AI tools to speed up workflow** currently used open.ai to help construct react.js components and **debug JavaScript**

## Interests

- Creating AI art using Mid-journey on Discord (GPT-3) I use this to illustrate my dreams and create fantasy characters
- Writing and painting to express myself creatively and explore abstract concepts
- Yoga & Meditation has been a huge part of my life the past few years (I also teach two classes a week)
- I enjoy running (completed my first marathon this June)

## Projects

### CODEMAN ADVENTURES - **REACT.JS APP**

With a team of two developers we created from scratch a simple text based turn based game. We worked on branch from GitHub repo, I was responsible for the functionality and logic of the gameplay.

### ATM MACHINE - **VANILLA JAVASCRIPT**

I built an ATM machine using JavaScript functions and logic with error handling and consideration of UI. The machine has functions for: check balance, withdraw, deposit, and cancel.

### FaBriC CONSULTING - **RESPONSIVE WEB DEV**

In a team of four developers we created a website for a digital consultancy. We sketched up the initial design in Figma before building the code (my design was chosen for the project)

## Education

**BA (Hons) Art & Design** - Bachelors Degree  
Nottingham University, UK

### **IT Front End Developer**

JavaScript, REACT, HTML, CSS (6 month bootcamp)  
Sundsgarden Folkhogskola \*reference from tutor available on request

**A-Level qualifications** - Information Technology, Communications, Business, Media, Art
